Public Health Inspector : A. F. Green, Cert. S.I.B.
General Assistant : Miss J. M. Swain

ANNUAL REPORT FOR THE YEAR 1966

Mr. Chairman and Members,

I herewith present my Annual Report for 1966.

The estimated population figure is given as 9,380, as against 9,290 for 1965.

The birth rate per 1,000 population shows a substantial increase to 17.05 from 14.31 for 1965.

The death rate per 1,000 living has increased to 10.76 from 8.60 for 1965.

There were 101 deaths as compared with 80 for 1965. Although this may seem a large increase, in fact it brings the number back to the usual expectancy of approximately 100 deaths a year. Four deaths were due to cancer of the lung.

It is very satisfactory to report that there have been no maternal deaths during the year. Further, this year there have been no infant deaths under one year of age.

The number of illegitimate live births has increased this year to 16 from 7 for 1965.

The number of infectious diseases notified have not been numerous, although of the 12 measles notified, 6 were admitted to hospital. One case of diphtheria appears in the tables. This was notified and investigated in connection with the outbreak in a neighbouring urban district, and although admitted to hospital, was not subsequently confirmed. This case may be responsible for the substantial increase in diphtheria immunisation during the year. However, it is wise to keep all immunisations up to date and parents are reminded that immunisation can be obtained at the clinic or from their family doctor.

I would like to offer my thanks most sincerely to the members of the Council and my colleagues for the help and co-operation I have received during the year, and with the preparation of this report.

DAVID P. ADAMS

Medical Officer of Health

NATIONAL ASSISTANCE ACTS

Several persons were kept under observation during the year, and efforts made in appropriate directions to assist with their problems. It was not considered necessary in any case to recommend that action should be taken under Section 47 of the National Assistance Act.

Report to Medical Officer of Health on Water
Supply to Clay Cross Urban District for the Year 1966.

The supplying authority to the area is the North Derbyshire Water Board.

Press reservoirs now provide the source of supply, the treatment is screening followed by chlorination.

Chemical and Bacteriological analyses are carried out in the Board's laboratories. All raw, treated and distributed waters are examined at least monthly. The number of examinations involved in 1966, being :-

Bacteriological	..	..	84
Chemical	..	..	84

Bacteriological results on treated waters were consistent with standards laid down by the Ministry of Health.

Chemical results varied with seasonal conditions the extremes of variation being :-

pH	..	..	..	..	..	7	-	7.4
Alkalinity (CaCo3)	..	..	60	-	150	mg/1;		
Hardness (CaCo3)	..	..	150	-	220	mg/1;		
Chloride (Cl)	..	..	..	19	-	28	mg/1;	
Fluoride (F)	..	..	..	0.2	-	0.4	mg/1;	

There was no evidence of plumbo solvent action in treated waters.

Before being brought into use all newly laid mains were washed out, sterilized and samples examined to ensure satisfactory bacteriological results were obtained.

No action was necessary in respect of any other form of post treatment contamination.

The waters were monitored to detect radioactive substances.

Monthly reports of current bacteriological and physical results were forwarded to the Medical Officer of Health.

SUPPLIES FROM PUBLIC WATER MAINS

1. Number of houses connected to mains	..	3,173
Estimated population involved		9,350
2. Number of houses on stand pipes	..	NIL
3. Number of houses not supplied from		
mains or standpipes		10
Estimated population involved		30

COMMON LODGING HOUSES

There are no common lodging houses in the District.

HOUSING

Number of houses inspected for housing defects (under Public Health or Housing Acts)		159
Number of houses found not to be in all respects fit for human habitation		71
Number of houses found to be in a state so dangerous or injurious to health as to be unfit for human habitation		60
Number of defective houses rendered fit in consequence of action (formal or informal) by Local Authority		123
Number of houses in respect of which		
a) demolition orders were made		NIL
b) closing orders were made		1
Number of houses included in Clearance Areas		60
Number of houses demolished in pursuance of Demolition or Clearance Orders		54

SLUM CLEARANCE

The rate of clearing sub-standard dwellinghouses was considerably increased during the year under review, and four further Clearance Areas were declared involving a
/total of

SLUM CLEARANCE (continued)

total of sixty houses. Two areas, The Bridge Street and High Street (No. 2) were confirmed without modification in December, the owners of the properties having offered no objection.

Forty families, comprising one hundred and thirty-three persons, were rehoused from unsatisfactory premises, and fifty-four houses were demolished during the year.

NEW HOUSES

The following new houses were erected during the year:-

a) Local Authority	..	..	32
b) Private Enterprise	..	..	73

RENT ACT, 1957

No action was necessary during the year.

IMPROVEMENT GRANTS

Fifteen applications for standard improvement grants were approved during the year. Although this is a slight increase over 1965, it is nevertheless disappointing in that there are still many properties, particularly in the Holmgate and Lower Market Street areas, which are capable of being improved.

SANITARY INSPECTION OF THE DISTRICT

The following inspections were made during the year :-

Houses inspected (under Housing and Public Health Acts)	..	159
Visits paid to above houses		241
Visits paid in connection with improvement grants		94
Drainage		62
Houses - let-in - lodgings		2
Moveable dwellings		4
Keeping of Animals		10
Swimming Baths		3
Hairdressers		6
Inspections under the Pet Animals Act, 1951		8
Enquiries into cases of notifiable disease		15
Atmospheric Pollution		4
Public Conveniences		34
Filthy and/or Verminous Premises		18
Miscellaneous Inspections		14
Offensive Accumulations		2

PUBLIC CLEANSING

This service is carried out under the supervision of the Council's Engineer and Surveyor.

SEWERAGE AND SEWAGE DISPOSAL

I wish to thank the Engineer and Surveyor for the following report :-

"The sewerage of the area is satisfactory, and one of the two Council's Sewage Disposal Works rebuilt a few years ago is giving satisfactory effluent samples.

Plans for a new disposal works at Danesmoor are now completed and are awaiting the approval of the Ministry. It is anticipated that the work will commence early in 1967."

	<u>Estimated Population involved</u>
Number of houses in district connected to sewer 3,125	9,216
Number of houses in district not connected to sewer 58	164
Number of connections made during the year :-	
a) existing houses NIL	
b) new houses 94	
c) other premises 1	
Number of conversions to waterclosets NIL	

PET ANIMALS ACT, 1951

One licence under the provisions of the above Act was issued during the year.

PREVENTION OF DAMAGE BY PESTS

The following is a summary of the work done during 1966 :-

Number of properties inspected for rats and mice as a result of :-

a) notification	64
b) survey under the Act	146

Number of properties inspected which were found to be infested by :-

a) rats	59
b) mice	5

Number of properties treated by the Local Authority 64

PREVENTION OF DAMAGE BY PESTS (continued)

In addition, regular inspections are made of the Council's Sewage Works and refuse tip, and in the event of infestations occurring, the necessary treatments are carried out.

Other works carried out under the Act include inspection of dwellinghouses for the presence of bed-bugs, cockroaches and other insect pests. During the year six properties were treated for the destruction of cockroaches, and five for other insect pests.

ANIMAL BOARDING ESTABLISHMENTS ACT, 1963

Only one licence was issued under the abovementioned Act, and this was in respect of premises being used for the boarding of cats.

PETROLEUM (CONSOLIDATION) ACT, 1928

Fifteen premises were licenced for the storage of petroleum at the end of the year, the total amount of petroleum stored being 31,070 gallons.

During the year three existing underground storage tanks were tested for soundness. At one installation, although the tanks were proved sound, the suction lines were found to be defective. The pumps and tanks were sealed and the licence amended accordingly. A total of thirty-eight inspections were made of licenced premises.

OFFICES SHOPS AND RAILWAY PREMISES ACT, 1963

The following tables show the number of premises, persons employed and inspections in connection with the above act as at 31st December, 1966:-

Class of Premises	No. of Premises registered during 1966	Total No. of registered premises at end of 1966	No. of registered premises receiving a general inspection during 1966
Offices	NIL	9	2
Retail Shops ..	NIL	50	18
Wholesale Shops, Warehouses ..	NIL	3	1
Catering establishments open to the public, canteens	NIL	3	3
Fuel storage depots	NIL	1	-

The total number of visits of all kinds made to registered premises during the year was forty-eight.

Carcasses submitted to treatment by refrigeration	2	-	-	-	-	-
Generalised and totally condemned	-	-	-	-	-	-

MEAT INSPECTION

There is only one small private slaughterhouse registered in the District, where the owner slaughters animals for his own butcher's business. A 100% post mortem inspection has been maintained, necessitating 120 visits to the slaughterhouse during the year. The premises are well maintained, and no problems have arisen during the year. Frequent inspections are now made by a Veterinary Officer of the Ministry of Agriculture, Fisheries and Food: no serious defects or contraventions of the various Acts and Regulations were notified.

INSPECTION OF OTHER FOODS

The following other foods were voluntarily surrendered on being found to be unfit for human consumption :-

Canned Foods :-

Fruit	..	..	..	..	127 lbs. (97 tins)
Tomatoes	..	..	..	..	44 lbs. (54 tins)
Vegetables	..	..	..	..	24 lbs. (23 tins)
Other	..	..	..	..	25 lbs. (26 tins)

In addition, a considerable quantity of frozen food, consisting of fish, fruit, vegetables, meat products and chicken were surrendered and destroyed, following the failure of a large frozen food cabinet at one of the local stores.

FOOD HYGIENE (GENERAL) REGULATIONS, 1960

Type of Premises		No. Complying with Reg. 16	No. to which Reg. 19 Applies	No. Complying with Reg. 19
